

' REDUCING OUR CARBON FOOTPRINT '

MARGAN RESTAURANT

Being farmers, we are committed to looking after the land so that it is able to look after us for generations to come. As such, we are determined to ensure our carbon footprint is as small as possible.

Our one acre fruit and vegetable garden is a labour of love as well as a sustainable way we can reduce our food miles. We base our menus around the seasons and in particular, what we are harvesting from the garden right now.

What is not used in the kitchen goes to the chickens who very kindly supply us with eggs for the menu and compost for the garden (the chicken or the egg?). The water falls from the sky, so we offer you fresh rainwater, filtered and free. The wine comes from the grapes grown on our vineyards right here in Broke Fordwich and made in the winery behind where you sit. We freshly prepare most menu items from scratch in our kitchen, including our signature gelati, pasta, smallgoods, pastries, etc.

In addition to what we lovingly grow we use local suppliers wherever we can. Riverflats Estate Olive products, Morpeth Sour Dough Bread, Redgate Farm Produce, Binnorie Dairy, Trunks Gourmet Meats, Nulkaba Hatchery, Exciting Ingredients (organics), etc.

Our talented kitchen team is headed by chef Ian Atkinson while Dee-Ann leads the Restaurant. Andrew Margan has made your wine.

We trust that you enjoy your time with us.
Lisa Margan
